

Power Line.

Crown Battery's Complete Line of Deep Cycle Batteries.

The Power Behind Performance

Crown Battery Manufacturing Co. • Fremont, Ohio • Made in the USA

People Who Put Performance Above Everything Else.

The Power. The Performance. The Productivity. The Best.

Since 1926 Crown Battery has responded to the “power” challenges and individual needs of industry leaders with the best available products and services in the field of heavy-duty commercial deep cycle batteries. A company-wide dedication to quality control and continual improvement has earned Crown Battery the highest quality and service rating in the industry.

An important part of Crown Battery’s long-term commitment includes creating value for our customers. That means partnering with our customers in North America — and around the world — to deliver advanced power solutions that give them the competitive edge. We strive to earn a reputation as a *partner of choice* and *deep cycle supplier of choice* in the global marketplace.

We Put More Into Our Deep Cycle Batteries... So You Can Get More Out of Them...More Performance, More Productivity with Less Maintenance.

Nobody builds them like Crown.

Nobody. Because no one else invests in the heaviest, thickest plates in the industry. Ours are over 10% thicker than our competitors. Combine that with our proprietary PROeye™ and our low-maintenance container – features that make battery maintenance predictable and efficient – and you’ve got a battery that’s going to last longer and perform like no other.

PROeye™

No mess, no guess system for inspecting electrolyte levels that signals when watering is required.

Heat-sealed Case and Cover Design

• Rigid Connectors

Heavy-duty TTP, COS and Post connectors deliver maximum electrical efficiency and durability.

• X-TEND Container Design

X-Tend provides more electrolyte above the battery plates so batteries can perform longer between watering intervals, lowering preventive maintenance costs and improving overall ROI on your Crown Battery purchase.

• Heavy-Duty Construction

Crown deep cycle batteries are the heavyweight of the industry. More weight means more lead, which translates into a battery that will work and last longer.

• Posi-Wrap™ Envelope Separators

Posi-Wrap Separators reduce maintenance and prevent failure due to short-circuiting and plate shredding, ensuring reliability and durability.

• Z³ Plate Construction

Crown's Z³ design combines three integrated features for superior performance and durability.

- Our signature "Diamond Z" grid architecture
- An inset lug position
- Our revolutionary "LifePlus™" active paste material
